SUMMARY

Specialist Programmer working on Full Stack development, having experience in developing application on Microsoft technologies. Well acquainted with C# Programming Language, ASP.NET CORE, Angular, microservices, SQL Server, Azure Fundamentals, etc. I am always curious to learn something new.

PERSONAL DETAILS

- DOB - 12th January, 1998
- Father's Name- Mr. C.B Dwivedi
- Permanent Address- E-12/1, Sarvodaya Nagar, Lko - 226016

EDUCATION

- **BACHELORS OF TECHNOLOGY** (Computer Science Engineering)
GLA University, Mathura, U.P. 2016-2020
- **SECONDARY SCHOOL**
Rani Laxmi Bai Memorial School, Lucknow, U.P. -2015
- **HIGH SCHOOL**
Rani Laxmi Bai Memorial School, Lucknow ,U.P.-2013

CORE SKILLS

- C#
- Microsoft SQL
- .NET Core Full Stack Web Development.
- Angular
- Microservices
- Typescript
- Azure Fundamentals
- Python
- Machine Learning & Computer Vision

OTHER SKILLS

- Leadership
- Duty Bound
- Ability to Work Under Pressure.
- Writing Skills
- Fast Learner
- Team Player

EXPERIENCE

- **Infosys-** Digital Specialist Engineer (January 2021 to January 2022)
Specialist Programmer (January 2022 to Present)
 - **Key Skills Involved:** C#, SQL Server, ASP.NET Core Web API, Angular 9, microservices, Git, ElasticSearch.
 - Currently working for a **Logistics client**.
 - **Work & Responsibilities**
 - Working on analysis, estimates, and low-level designs of requirements based on discussions with clients.
 - Developing APIs, SQL procedures other backend-related work for the requirement.
 - Working on UI and integration of any new feature.
 - Writing Test Cases and Integration testing for the developed new features.

OTHER RESPONSIBILITIES / TRAININGS

- **DevIncept** - Founded an Open-source community, enabling students to learn and collaborate on new tech with help of industry experts.
- **StudentCode.in** - Contributed to DiversitAI org, in the open-source contribution program, and worked on image segmentation.
- **IOTIOT.in** - AI Core Tech Skilling - Worked on Object Detection, Transfer learning, and hyperparameter tuning of models.

PROJECTS

- **Image segmentation API:** Built a multi-client web application with FastAPI, which takes an image and gives segmentation results in JSON format.
- **Object Detection** - Detect a Specific Object Using both SIFT or ORB.

CERTIFICATIONS & ACCOMPLISHMENTS

- **40k + views** on Articles on [Datascience+](#) community.
- Paper published in **International Journal of Advanced Science and Technology**.
- Ranking in top 1% [Kaggle Notebook Expert](#).
- Featured on [AI Wall of Fame](#) for being a top performer in IOTIOT.in.
- Participated and successfully completed **HacktoberFest 2020**, and **2021** Hosted by **DigitalOcean**.
- Multiple Certifications in **Machine Learning/Data Science/Deep Learning** by IBM/National Research University Higher School of Economics on Coursera.

EXTRA CURRICULAR ACTIVITIES

- Successfully organized a 1 month contribution program **DCP'21**, with 2000+ participants and 50+ Open-Source Projects.
- Have written some technical blogs and Youtube videos to promote free learning.
